

The co-operation of our audience is respectfully requested for the presentation of the third play in our programme. "ORACLE OAK" is presented "In the Round" i.e. on the floor of the hall with our audience sitting on more than one side of the floor area used for the production.

At the end of the second play therefore we shall be grateful if you would retire to the small hall to enable us to modify the seating.

Tea and Biscuits will be on sale during this interval.

Theatre in the Round is undoubtedly the oldest form of dramatic presentation in our world and it is our hope that you will enjoy this break with conventional stage presentation.

ST. SERF'S CHURCH PLAYERS

present
